

Instructions for Safe Exam Browser (SEB) for Computer pool room (en)

[Zur deutschen Version wechseln](#)

Computer pool room of the HRZ (Self-testing possible):

- Log in to the computer with your TU-ID
- Start Chrome or Edge
- Log in to Exam Moodle and go to the [technical demo exam for the Safe Exam Browser](#)
- Download and open the configuration file

General computer pool room (Self-testing not possible):

Starting the exam may vary depending on the computer pool room. One of the following three options is possible:

- You start the exam like in one of the HRZ computer pool rooms.
- You start the exam via a config file that can be found on the desktop or in the start menu. You will then be asked for your TU-ID, and after logging in, you will find yourself on the exam dashboard and can open the exam.
- The SEB is already started, and you log in to Moodle with your TU-ID.

Notes

- For messages like "Page could not be loaded," click "ok."
- If the red start button is not visible, please reload the page or press F5.
- List of all [HRZ computer pool rooms](#)
- Course with additional [demo exams for the SEB](#)
- To exit the SEB, you can either use the "Exit Safe Exam Browser" button or the Quit button. For demo exams, the password is always "quit". For exams, it is typed in by the exam administrator if required.

If you have any questions, you can access the [FAQ](#) here.
